PRESTIGE®

SAVORING
ART DE VIVRE

ART DE VIVRE IN REFINEMENT

We are yacht builders, creators of dreams.

INTRODUCTION

We are yacht builders, passionate about yachting. We have perfected and reinvented an industrial savoir-faire honed by decades of experience at sea. In our yard located in western France, there are over 30 different fields of skilled craftsmen who participate in the design and construction of PRESTIGE yachts. Multiple generations, a rich variety of expertise, the same desire to create beauty, in order to meet exacting quality standards.

Erwin BAMPs, PRESTIGE Vice President

“ Our yachts combine an elegant exterior design with beautiful interior volumes. ”

Camillo and Vittorio GARRONI

Over the years, with PRESTIGE, GARRONI DESIGN has successfully combined Italian design with comfort and innovation. We design exceptional yachts, the reflections of a creative vision that has always driven us: the desire to create something lasting; timeless and always contemporary.

LUXURY OF SPACE

The mastery of fine materials, of air, space, and light, yields exceptional and sophisticated yachts. PRESTIGE transforms the complex into the very simple and offers intelligent layout and high-end technology to reinvent life at sea.

WHISPERED LUXURY

A **refined and harmonious atmosphere** at once awakens the senses and makes you feel at home. Designed with great care and pride, each detail is meticulously crafted from the finest materials, yet without excess, remarkable but never overstated.

TIMELESS ELEGANCE

PRESTIGE yachts are distinguished by **bright and inviting** generous interior volumes and a well-balanced, streamlined aesthetic on the exterior. The natural harmony between living spaces enhances the timeless character of each PRESTIGE yacht.

OUR HERITAGE IN LES HERBIERS

Our two shipyards, in Les Herbiers, France and Monfalcone, Italy, house the entire brand's savoir-faire. Les Herbiers shipyard is among the largest and most productive factory in the marine industry. Originating from the first Jeanneau facilities, it is today the center of PRESTIGE savoir-faire.

CUTTING-EDGE TECHNOLOGY

With unique expertise, PRESTIGE designers and engineers continually seek to improve quality and seaworthiness. The latest generations of technology are used to advance the production process and to ensure the highest standards.

Our Les Herbiers factory is certified ISO 9001 for the quality of conception and construction and ISO 14001 certification for environmental protection.

MASTERY OF COMPOSITE TECHNOLOGIES

All fiberglass components are meticulously manufactured using materials and resin applied by vacuum infusion. PRESTIGE creates most large parts by infusion, thus ensuring greater strength and solidity of each piece, while also reducing emissions and improving the working environment.

PRIDE IN DETAILS

PRESTIGE yachts are produced with the greatest attention to detail, following a strict production process. From fine woodwork to leather upholstery, PRESTIGE artisans take pride in the details of their craft and demonstrate a common desire to create exceptional yachts.

SERENITY

Purposeful innovation guarantees ease of handling, comfortable cruising, stability, and excellent insulation. Moreover, PRESTIGE is one of the first boat builders to design lighter, more spacious and more comfortable yachts by adopting Pod propulsion systems, which have revolutionized life on board.

WARRANTY

Industry-leading 10-year warranty on the structure, and 3-year comprehensive warranty adds value to your PRESTIGE now and in the future.
