PRESTIGE

SAVORING
ART DE VIVRE

ART DE VIVRE IN REFINEMENT

We are yacht builders, creators of dreams.

HISTORY

For over than 35 years, PRESTIGE has been offering its customers precious moments at sea by building yachts with a unique design and concept.

Constantly reinventing and perfecting exceptional industrial know-how, PRESTIGE is now developing a whole new generation of flybridge yachts to meet its customers' needs.

This new generation is built on the heritage of the PRESTIGE F-LINE, features exciting improvements, such as innovative interior and exterior designs, high-end fittings, and an unrivaled level of fit and finish.

INTRODUCTION

With a heritage built over more than three decades and 50 unique models launched, the F-LINE holds a special place in the world of motor yachts.

This collection reflects a unique vision: to offer yachts that enhance space, natural light, and life on board through intelligent design and refined elegance. The choice of fine materials and the precision of the finishes are a direct expression of PRESTIGE's commitment to excellence and French savoir-faire.

Inside and out, each model cultivates a sense of harmony with the sea - a soft, contemporary atmosphere where comfort, style, and functionality meet naturally.

We are proud to celebrate the latest addition to our collection, the F4.3. It brings meaningful innovations that respond to the evolving expectations of our owners, while staying true to the identity and spirit of the brand.

Jean-François LAIR, PRESTIGE Brand Director

“ The New Generation perfectly represents the evolution in the PRESTIGE design and layout. ”

Camillo GARRONI

PRESTIGE has always prioritized volume, comfort, bright interiors and innovative layouts in the design and creation of motor yachts for its customers.

The new F-LINE generation, designed by Garroni Design, is built on the heritage of the PRESTIGE F-LINE, features exciting improvements, such as innovative interior and exterior designs, high-end fittings, and an unrivalled level of fit and finish. The new generation remains focused on family yachting, with clever details and an exceptional layout.

Michael Peters

“ The hull design began with the desire to improve comfort and seakeeping with the integration of cambered surfaces. These complex convex forms provide a smoother riding hull, stronger resistance and allows for a fuller bow section that improves interior volume. ”

“ The French Riviera, where the sea reflects the colors of the facades, the sky and nature. This iconic region inspired the new F-LINE generation design, refined lines and minute details. ”

Valentina Militero De Romedis

DYNAMIC EXTERIOR DESIGN

Inspired by the movement of water, the fluid and elegant exterior lines of the F-line hull blend with polished surfaces in living areas, reflecting copious natural light.

The fashion plate, located on each side of the yachts, appears as a strong brand marker of this new generation. Its elegant flames illuminate the new generation and affirm PRESTIGE's strong identity.

SAVOR PRIVACY AND MOMENTS OF CONVIVIALITY

PRESTIGE reinvents the exterior and interior layouts of its yachts, offering customers maximum comfort to savor convivial moments with friends and family at sea and enjoy intimacy in a high-end universe.

The fully equipped **OceanView galley** is at the heart of the life on board, offering more space to expand social experiences. With its transversal orientation, it looks out toward the cockpit and the open sea. This brand-new galley opens directly onto the exterior through a wide-opening glass window.

The master suite, intelligently located on the yacht, offers exceptional interior volume and more privacy thanks to better sound insulation. It provides a quiet, peaceful, intimate living space for the owner, conducive to reflection, or simply rest.

SAVOR A NEW ALLURE

REFINED FIT AND FINISH

The sleek design highlights fine details, noble materials, and polished finishes for a perfect combination of comfort and elegance, evoking a feeling of serenity.

The smooth atmosphere on board makes passengers feel connected to the sea, omnipresent in the interior wherever they look.

Each surface, each curve has been sculpted to create **elegant lines** with exceptional finishes, reminiscent of the movement of water.

The gentle curves of its design unfold in connection with the sea and the elements to create a gentle, soothing atmosphere.

CUTTING-EDGE TECHNOLOGY ON BOARD

New F-LINE models offer a **concentration of technology and innovation on board**, for the owner to benefit, carefree, from ease of use and maximum comfort. For intuitive cruising, exceptional maneuverability, and peace of mind, state-of-the-art solutions are installed on board, while the stabilizer ensures the comfort of all on board.

“ An eco-responsible attitude with a high level of commitment. ”

PRESTIGE is working with an environmentally responsible approach throughout all phases in product design, development, and construction, and throughout organization. PRESTIGE also aims to enable owners to feel closer connection with nature aboard their yachts.

INFUSION

Which traps solvents and prevents release of volatile organic compounds into the air.
Core materials made for recycled plastics.

ECOLOGICAL PRODUCTS

Varnishing: low level of solvents and curing by UV lamps.

SUSTAINABLE WOOD

Sourced from responsible management of the world's forests.

NATURAL MATERIALS

Fair-trade, bio/organic materials for bedding.

CERTIFIED
SUPPLIERS

Use of recycled materials
that contain sustainable
components and are manufactured
in an environmentally
friendly manner.
Recovery of drinking water and
Purified emissions - purification
of 99% of impurities.

ECO DRIVE

Significant reduction
in exhaust emissions:
30% less fuel consumption
and 40% more autonomy.

RECOGNIZED
LABELS

Certified for the quality of
conception and construction,
for environmental protection.

SERENITY

Industry-leading 10-year warranty
on the structure and 3-year
comprehensive warranty

Combine ecology
and economy.

The search for committed,
ecologically sensitive partners:
a high-end, ethical and organic
alliance.

An engine system that
provides maximum power and
maneuverability while reducing
fuel consumption.

Trust and reliability: worldwide
renowned certifications and a
world-class warranty.
