

DELPHIA
Mindful Cruising

MARTIN SCHEMKES

Brand Director

Delphia boats promise a new way of cruising in inland waters and at sea: calm, aware, respectful of the environment and of others. Agreeing to slow down means giving yourself the opportunity to gain in serenity, to live more intensely the moments spent on the water. It is a desire that we sense in some people, and one that goes hand in hand with greater ecological awareness.

The introduction of new, more sustainable materials, the constant concern to control the environmental impact of boating, minimised energy consumption thanks to an optimised hull shape and reduced cruising speed are our first responses to the new expectations of these customers”

We believe that deceleration is the key to enjoyable and relaxing cruising at sea. That is why we give owners and passengers the opportunity to enjoy moments of pleasure on boats designed for comfort, convenience and ease of use. Our teams are constantly looking for innovations and more durable materials to give you the best possible cruising experience.

Inspired by nature, Delphia aims to offer its customers an unprecedented level of relaxation on board, characterised by the use of intelligent solutions and sustainable materials. At Delphia, we call this 'Mindful Cruising'.

MINDFUL CRUISING

MINDFULNESS

Rekindle the sacred bond with your essence and those dear, allowing the dance of genuine moments to unfold in the tranquil embrace of serenity. Amidst the ethereal sanctuary of Delphia, discover the art of leisurely cruising: a blissful communion with nature, where every ripple echoes the harmonious melody of a home found in the heart, away from the mundane.

ADVANCED SIMPLICITY

We believe in advanced simplicity and peaceful cruising. Embark on a voyage though to make your life onboard easier. From safety to ergonomics, our boats are crafted to live an experience in complete serenity.

COLLECTION

Our boats are designed for you, to slow down in style and comfort. Open yourself to the inland waterway and cruises at sea in a greener way. See our collection of boats >

DELPHIA 12 FLYLOUNGE

Travelling in complete privacy

The Delphia 12 FlyLounge is the ideal boat for intimate cruises that encourage relaxation and reconnection.

This boat is for lovers of comfortable travel. A real house on the water, its set up ensures privacy. Designed for pleasant stays, the interior of the cockpit is bathed in light and offers a 360° view, while the exterior allows you to move freely from the sun deck to the bar.

The fully-equipped galley encourages sharing, from preparation to tasting. The two cabins have plenty of storage space, so you can bring along the wardrobe you need for every occasion.

Equipped with one or two engines, the FlyLounge offers the very best in low-speed cruising and maximize on-board comfort. Designed in B category, it can go at sea and along the coast.

DID
YOU
KNOW

The engines installed in the Delphia 12 are among the cleanest diesel engines in the market, with possibility of running on HVO biofuels and emissions low enough to be authorised for cruising on Lake Constance.

OUR MINDSET

 Being environmentally aware is not just about the environment, it's also about people's well-being. It's a way of thinking and acting, and a principle that must guide us.

ENGINES

Our electric propulsion system has a very positive carbon footprint, as it creates no pollution of any kind, is silent and produces no heat or fuel smells. We have carefully chosen our partner for our thermic propulsion system: Yanmar, whose diesel engines comply with the latest emissions regulations and standards.

ELECTRICITY

Thanks to the clean, emission-free energy produced by the solar panels, we offer a renewable source of electricity on board. We chose LED lights for our boats because they consume almost 5 times less energy than ordinary lights.

MATERIALS

For our boats, we have chosen a synthetic deck material rather than traditional tropical hardwoods. This particular material is an excellent alternative for minimising our environmental footprint and is easy to recycle. Our balsa wood is biodegradable and comes from sustainable plantations, responsibly managed with environmentally friendly harvesting and processing. The wood used for the on-board furniture comes from certified forests that respect biodiversity as much as possible. This allows us to fully control the supply chain and ensure product traceability.

FABRICS

We have chosen to use as many recycled fibres, yarns and fabrics as possible to reduce waste.

WASTE MANAGEMENT

On board, you will find large tanks for water and waste, so you can dispose of your rubbish when you are docked.

TO FIND OUT MORE

We encourage e-mobility by installing a charging point for electric bikes on our boats.

OUR PARTNERS

At cruising speed, our Delphia are quieter than a dishwasher.

GARMIN.

A NEW CHAPTER IS ABOUT TO BEGIN IN DELPHIA HISTORY, AND TRUSTED PARTNER GARMIN IS PROUD TO BE PART OF THE ADVENTURE.

You love getting out on the water. Not a day goes by without thinking of it. The smells, the sounds, the feeling of being elsewhere. We design Garmin Marine products that are easy to understand, simple to use, intuitive, and dependable from season to season. This way, your Garmin Marine electronics will be reliable during each new outing. Even when you're not on the water, you can stay connected to your boat with the ActiveCaptain™ app.

WE CREATE THE FUTURE OF HOW PEOPLE MOVE ON THE WATER

As pioneers in the field of on-water electromobility, Torqeedo has set many standards since its inception, reinforcing the lead of its motors over all other propulsion solutions available on the market. Torqeedo offers outboard and inboard motors, electric motors and hybrid drive systems from 0.5 to 100 kW at motor level (up to 200 kW at system level).

YANMAR HAS LONG HAD A CLOSE RELATIONSHIP WITH THE SEA.

For more than a century, Yanmar has shared the beauty of the sea with its customers. As a leading supplier of marine engines for industry and leisure, Yanmar is committed to providing the highest quality equipment that delivers superior performance and value over its lifetime, with minimal impact on the environment.

The Seanapps mobile application and its on-board unit offer a host of features for an optimal navigation experience.

You can use your smartphone to consult information such as battery charge status, water tank levels and upcoming maintenance operations.

Seanapps allows you to plan your departure with complete peace of mind, ensuring that your boat is always ready to sail. What's more, an integrated alert system notifies you in real time of any po-

tential problems (disconnection of the dock connector, for example). So you'll always know what's going on with your boat.

The application facilitates interaction with your dealer, allowing you to plan and manage servicing and repairs with ease to solutions that are adapted, practical and comfortable...
